

Snap N Post User Guide

Snap N Post is a web application that can be used on a smartphone or tablet to snap photos of individuals and post the photos directly to contact records and/or household records.

Snap N Post URL

Access the Snap N Post application at

<https://my.churchdomain.org/SnapNPost/Snap/Post>

You may wish to bookmark the link or add it to your home screen.

Login and Security

A Ministry Platform security role can be configured when the application is deployed to your system.

Users with this security role may use their Ministry Platform login credentials to access the application.

Snap N Post User Guide

Instructions

Begin typing last name or first name in the search field.

Click on the Select Contact dropdown and select the individual.

Click Snap and take a photo.

Click Post to post the photo.

The default photo for the Contact or Household record has now been updated.
